

# AMI AutoAGENT *enhance the way you work...*

## (FEATURES OVERVIEW)

Accepts and Consolidates Independent Demand

Add Safety stock or Forecast Demand

Transparently Feeds MRP

Maintains Multiple Master Production Schedules

Runs on Microsoft Dynamics™ GP

Microsoft Business Solutions

## Master Scheduler

**IMPROVE DEMAND MANAGEMENT.** The AMI AutoAGENT Master Scheduler automatically consolidates plant dependant demand to feed MRP and Shop Floor scheduling, giving you accurate information for plant production.

**SAVE TIME AND EFFORT** with easy to use MPS scheduling tools.

Easy to use maintenance tools makes adjusting your demand simple and fast.

Date	Firm Qty	Safety Qty	Forecast Qty	Qty On Hand	Adjusted Demand
10/29/2006	1,200	500	0	138	1,562
11/15/2006	1,200	500	0	500	1,200
11/12/2006	1,200	500	0	500	1,200
11/19/2006	2,400	500	0	500	2,400
11/26/2006	2,400	500	0	500	2,400
12/10/2006	2,400	500	0	500	2,400
0/0/0000	0.00000	0	0.00000	0.00000	0.00000

Add safety stock or unplanned forecast demand to your schedule.

Demand from AutoAGENT's Master Production Schedule is part based for high volume repetitive manufacturers.

Plan Name	Item Number	Ship Date	Firm Demand	Safety	Forecast Demand	Quantity On Hand	Adjusted Demand

## CUT COSTS AND IMPROVE OPERATIONS

Microsoft Business Solutions

AMI AutoAGENT ERP enhances the flow of information throughout your company. As a result, the accuracy and the speed of your production is increased allowing you to do more with less. This translates into more profitable operations without sacrificing quality, delivery, or price. Here are just some of the benefits you will experience after implementing AMI AutoAGENT ERP:

- Enhance your environment** The AMI AutoAGENT ERP business solution is built on Microsoft .NET technology and is seamlessly integrated with Microsoft Dynamics GP. These solutions work like and with familiar Microsoft software, which means less of a learning curve for your people, so they can get up and running quickly and focus on what's most important for your business.
- Less data entry and errors** With AMI AutoAGENT ERP, all of your company's information is organized into one seamlessly integrated system. There is no need for re-keying of information by different departments and there is less need for manual paperwork. This greatly reduces the potential for errors.
- Cut operations Costs** Key Performance Indicators allow decision makers insight into what is going right or wrong within their demand production environment. AMI AutoAGENT ERP provides historical and real-time visibility into these indicators. Problems can be identified and adjustments can be made sooner rather than later, with confidence.
- Increase throughput** AMI AutoAGENT ERP monitors resource availability. As demand is generated, resources are automatically allocated. Production is given visibility to potential bottlenecks allowing for appropriate adjustments to scheduling. This creates greater efficiency while reducing downtime and overtime.
- Value delivered** When a business management solution works the way your current technology works, it fits easily and seamlessly into your existing systems and helps you maximize your technology investment. Software that's roles-based and targeted around the specific jobs people do can provide tremendous value and insight because it:
- Is familiar, helping reduce the time required to learn how to use it, and freeing up time to focus on what matters most.
  - Fits with your systems, helping to maximize your investment in Microsoft technology.
  - Fuels your business productivity, automating your business-critical operations and adapting to fit into your type of business, helping to ensure the most relevant insight.
  - Helps enable confident decision making, providing you with more complete insight across your organization.

**Shorten Transaction Cycles**  
**Reduce Inventory Costs**  
**Eliminate Missed Ship Dates**

**Decrease Production Costs**  
**Ensure AIAG Standards**  
**Stamp Out Production Errors**

**Ship the Right Product**  
**Improve Resource Allocation**  
**Enhance Communication**
